Industrial Foundation Is Planned

An industrial foundation is being formed for Canyon.

Spearheading the foundation drive is Joe Gidden, chairman of the Chamber of Commerce industrial committee.

Gidden says he hopes to see at least $25,000 subscribed to "woo" industry to the community.

James Heath of the Texas Industrial commission in Austin met here with community representatives to give pointers on forming the foundation and bringing industry to Canyon.

He said five things are essential to bringing in industry. These he listed as community betterment, research and analysis, sites and buildings, rail facilities and promotion and prospecting.

Texas Industrial Commission is a state agency designed to bring new industries to Texas. He told the Canyon group that a seminar on obtaining industry will be held in March in Austin and he urged the group to attend.

IT'S NOT HARD to figure that these kids see Santa Claus. The group congregated against the window Tuesday in front of an animated Santa Claus at Jess Ford Company.

Needy Families Being Sought

Aid for "needy families" is being gathered by a data control center recently established through efforts of the Canyon Pastors' Association.

All persons knowing of needy families in the community are urged to contact Genelle Bourland, OL5-3251, in the County Judge's office and give a brief description of the family's need and circumstances.

Names of the "families in need" will then be transferred to appropriate church and civic groups who are wishing to lend aid to needy families at Christmas time.

Board Recommends Drastic Tuition Hike

Texas College Coordinating Board Monday recommended that tuition in state institutions of higher learning be more than doubled.

Dr. James P. Cornette said this would work a hardship on many students now attending WT.

The board proposes that students pay $7 per semester hour. A student now pays a flat rate of $50 a semester if he is a full-time student. The average rate per semester for a student carrying 15 semester hours is about $3.33 per hour.

Dr. Cornette went on to say that recommendation of the coordinating board is a reasonable recommendation and therefore may be considered by the legislature.

Texas has one of the lowest tuition rates in the nation for state supported institutions. Tom Sealey, member of the board, pointed out that Texas in the lowest third on tuition charges. All Texas state schools have the same tuition rates and presumably rates would remain uniform if the legislature acts favorably on the recommendation.

"Looking at it from the West Texas State student's viewpoint," said Dr. Cornette, "I would hope that the legislature would find other means of financing the appropriations to institutions because I know that a large percentage of our students must themselves finance a large part or all of the expense of their college educations."

For the last several sessions of the legislature bills to increase tuition have been introduced but not passed.

"It may not get passed this time," said Dr. Cornette.

Proponents of the increase have argued in the past that an increase is necessary in order to raise teachers' salaries.

Dr. Cornette said he fears that an increase in tuition would not lead to a teacher pay raise but would only diminish the amount of money supplied from the general fund to educate the state's young people.

If a tuition-hike bill is passed by the legislature it will go into effect next fall.

Nativity Tableau

A "live nativity" scene will be presented tonight and Friday night on the north side of the courthouse square through joint efforts of the Canyon Jaycees and Jaycee-Ettes.

The scene will be enacted between the hours of 7-9 both evenings and will feature costumed personalities and numerous animals. To be featured in the scene will be Mary, Joseph, the Angel, the Shepherd Boy, and the Three Wise Men.

"The scene is especially educational and fascinating for small children, since the characters move about while religious Christmas songs are being played in the background," said Mrs. Jim Scott, chairman.

Young Voters Must Register

To qualify for voting people who will be 21 years of age by the time of the 1967 elections must register by Jan. 31.

The change was explained in a memorandum by the Texas Attorney Generals office concerning the newly adopted 1966 Texas Voter Registration Law.

In the past, those who would become 21 years old were required to register within 30 days prior to an election in order to qualify as voters.

Although the poll tax has been repealed, every voter, except those over 60, must register by Jan. 31 to qualify for voting.

The merry gentleman will distribute sacks of goodies to the youngsters and hear their "wishes" during the remainder of the afternoon.

Expect To Open In Sixty Days

A state charter for a new bank in Canyon was approved Wednesday.

Robert Stewart, deputy commissioner of banking, told The Canyon News approval was unanimous.

Sitting on the board which approved the charter were Robert Stewart, assistant commissioner of banking; Jesse James, state treasurer; and Robert S. Strauss, citizen member. Stewart sat for J. M. Falkner who was out of town. The board sits in Austin.

Hearing on the Canyon bank charter was one of two heard Wednesday. The bank will be known as West Texas State Bank of Canyon.

Several Canyon people were in Austin on behalf of the new bank. Among those making the trip were H. R. Fulton, Jr., Milton Morris, Ed Harrell, Herschel Coffee, Virgil Henson, Murphy White, Dr. J. Manly Bryan and Clarence Beckman.

A spokesman for the group said the bank should be open for business within 60 days after approval of the charter.

The charter request was made in September.

The bank will have a capital of $200,000, a surplus of $200,000 and reserves of $100,000.

Senator Grady Hazlewood will be chairman of the board. David Levens of Midland will be president.

Directors include Beckman, Dr. Bryan, White, Fulton, Henson, Morris and Harrell.

Coffee, a member of the West Texas State University faculty and an expert on economics, gathered economic data which was presented to the banking commission in support of granting of the charter.

West Texas State Bank will be housed in a building at the corner of Fourth Avenue and Fifteenth Street. This building once housed Canyon First National Bank.

Although there was nothing concrete decided at the meet, said Randall County Agent John Brazzil, several problems of the area, especially concerning the conservation and use of wat-

Aldridge Case To Higher Court

Attorney for Darrell Aldridge this week said he will appeal the young man's expulsion from West Texas State University to the Texas Supreme Court.

Aldridge, whose parents now live in Odessa, was suspended indefinitely from the university Tuesday morning following denial of his petition for a rehearing by the 7th Court of Appeals. Aldridge, 21, was a senior at WT until he was expelled.

Attorney Jack Hazlewood said he also may seek an injunction to put Aldridge back in school until action is taken by the Supreme Court.

Dr. T. Paige Carruth, dean of student life at WT, said he had notified Aldridge Tuesday morning that on advice and counsel of the Attorney General's Office in Austin, that Aldridge was officially and indefinitely suspended from the university.

The 7th Court of Civil Appeals Nov. 7 overturned a writ of mandamus issued last spring by the 47th District Court Judge Gene Jordan. The manadmus had reinstated Aldridge in the university.

cials until after the rehearing had been denied.

On advice from Assistant Attorney General Pat Bailey, who handled the case for WT, the suspension came Tuesday.

In late January of 1966, Aldridge was suspended from the university by Dr. T. Paige Carruth and the suspension was upheld Feb. 3 by a faculty disicplinary committee. Suspension came after Aldridge was placed

King Of Road Wants To Retire

BY WAYNE BOARD

Richard Wilson, who, by his own admission is "Hobo King," may soon lay down his pack sack and settle down.

Wilson, who won his royal title at a national hobo convention in Briett, Iowa, for being the "biggest liar" said his pack sack was weighing him down and it might just be time to retire from his travels.

Born in Franklin, Penn., Wilson carries the sack, bed roll in a pack. He carries other items in his large coat pockets.

"I don't need much to see me through," he explained, "because I sleep outside and travel by train."

Wilson also carries a wire hand exerciser to increase the flow of blood in his arm.

"My pack sack gets too heavy and puts too much weight on my right arm," he said.

"I've gotten over being lonesome," Wilson said, "because I know so many people in different parts of the country--a lot of people see me in the papers and on television."

Wilson explained that the press "exposure" could possibly explain why he has not been arrested many times.

"I don't guess I've been in jail over three or four times in the last 15 years," he continued.

The bewhiskered hobo, who quotes liberally from Shakespeare, the Bible and Confucious, has many observations about

CANYON RIM

I have to agree with Dr. T. Paige Carruth in his decision on the Aldridge case.

I know it was a hard decision for the dean of student life to make. He sits in a lonely chair lots of times. It's not easy to make decisions which will affect the lives of young people in years to come.

Let me point out that if Dr. Carruth fails to make any decision in such cases that failure could just as decisively affect the lives of the people involved.

The sooner a young person finds out that he cannot flaunt the rules of society without suffering for it, the better off he is and the better off society is for his having learned.

Dr. Carruth's job is protecting society, present and future, and maintaining an orderly campus on which young people can prepare themselves for future leadership.

Since he rarely has business with students unless there has been an infraction of university rules, he often is portrayed as the university's bogey man.

Actually, Dr. Carruth is a family man interested in the future of this community and this country. He works diligently on any community project assigned to him.

Maybe it's time some members of this community tell Dr. Carruth how much we appreciate him.

I am against raising the tuition at state-supported institution of high learning.

If some of the Coordinating board which recommended the hike could see how some of our students here work and scrimp to make it through school they wouldn't want to tack on this extra expense.

I daresay that a lot of students would be forced out of school if the legislature goes along with the board. Many students are on a budget so tight it won't permit an extra soft drink without getting out of kilter.

I'd a lot rather see the state spend money educating its kids than to see those kids on the poverty program in a few years.

There's a move a foot to establish an industrial foundation for Canyon.

The foundation would be supported by subscriptions from businessmen and would concentrate on bringing industry to Canyon.

Industry is all Canyon needs to be one of the most thriving communities in the country. I hope the community will support this effort to bring industry here.

Military people say that 750,000 Americans ultimately will be committed to the war in Vietnam. I'm going to say as long as I write this column that we cannot fight a war of attrition in Vietnam.

We cannot swap man for man in the Orient. There's just too many of the enemy there.

We must either win, get out or face disaster.

Alcoholism Disease Says Forum Speaker

BY WAYNE BOARD

There is not "a" solution but there are "the" solutions to alcoholism, Dr. C. Stanley Clifton said Saturday.

Dr. Clifton, director of the University of Oklahoma's School of Social Work, was speaking before a group of area doctors, nurses, teachers and community leaders at a Panhandle Conference on Alcohol Studies.

Speaking on the West Texas State University campus, Dr. Clifton said one out of every 15 or 16 people who drink will eventually become an alcoholic.

"I guess I should begin my talk with some jokes about alcoholics," Dr. Clifton said, "but the more I work with the subject the less it seems funny."

Dr. Clifton stated that alcoholism is a disease but that many doctors disagree with the term.

"A disease," he said, "is whatever the American Medical Association calls a disease--however, many physicians will dispute this."

Dr. Clifton contended that if an alcoholic realizes his problem is a disease, the patient is much easier to treat.

Advocating that every student in school be familiar with what he termed "the natural history of an alcoholic career", Dr. Clifton said that many authorities disagree as to whether alcoholism should be placed third or fourth on the list of the most serious diseases.

"Whether it's third or whether it's fourth, it's still a problem" he continued.

Dr. Clifton also termed "ridiculous" the belief that poverty and drinking are directly related.

"If there was no alcohol to drink," he stated, "we would still have poverty."

Although Dr. Clifton said the average age of the alcoholic is between 37 and 45, there is a good deal of drinking among high school and college students also.

"There is one thing you can say about the young drinker," said Dr. Clifton, "and that is, 'they drink like their parents'."

The Conference was sponsored by WTSU, the Amarillo Council on Alcoholism, Texas Commission on Alcoholism, and the Division of Extension of the University of Texas.

Other conference staff members and speakers were W. F. Cain, education director of the Texas Commission; the Rev. John M. DeFoore, pastor of Highland Baptist Church in Waco; and Dr. Robert B. Sheldon, director of the Alcoholism Research Section, Houston State Psychiatric Institute.

The Canyon conference is an outgrowth of the annual Institute on Alcohol Studies at the University of Texas.

Fire Hazards In Xmas Tree

BY WAYNE BOARD

Christmas trees and electrical decorations may contain a multitude of fire hazards, Canyon Fire Captain Joe Rice has stated.

The trees, he said, should never be left on display over 10 days as they tend to dry and increase the chances of fire.

"If residents will get a stand for their tree that has either the New York City Fire Department or Underwriters Laboratory seal of approval and one that will hold water to keep the tree's moisture content high, the chance of fire will be lessened," he said.

Rice also added that many "evergreen-type" trees produce a self-protecting oily substance within the tree which is highly flammable.

"Tests time and time again," Rice added, "have proven that needles on an average sized tree will burn within three minutes after they once catch fire."

As for electrical lighting and decorations, it is wise, he continued, to purchase only those lights of good quality and see that old light cords have no worn insulation or mice-nibbled holes.

"Never, and I repeat never, should anyone leave their home or go to bed with any type Christmas lights burning," Rice declared.

All decorations should be fire proofed, spray snow non-inflammable, and under no circumstances should candles be used on a tree.

To minimize the possibility of fire after opening Christmas gifts, all wrapping materials should be disposed of and all decorations put away, he said.

"It's also wise," Rice continued, "to use a good extension cord and not to overload plugs. Everyone should consider their normal electrical load plus the Christmas load."

Rice also emphasized that the city ordinance prohibiting shooting of fireworks within the Canyon's limits would be enforced.

"If anyone has any electrical Christmas lighting they are not sure is safe, they can bring it by the station here and we'll check it out for them," Rice concluded.

Curriculum Study To Be Reported

Two years of study by a curriculum study committee at West Texas State University will be reported to a consultant who will visit the campus here for three days.

Dr. Bruce Thomas, dean of Trinity University, will be on the campus Wednesday through Friday to consider a report on the University's general education requirements and recommendations by a curriculum study committee headed by Graduate Dean John B. Wilson. The committee was appointed two years ago by President James P. Cornette to study the University's general requirements for bachelors degrees.

Thomas, an advisor to the Coordinating Board, Texas College and University System, will meet with the special committee, conduct sessions with deans and department heads, the administrative staff, and conduct interviews with different faculty members during his three-day stay.

After Dr. Thomas' visit, the WTSU Curriculum Study committee will make a report recommending core courses which will become requirements of all graduating students. Ultimate changes will be approved by the Coordinating Board.

County Agent's Column

The wheat pasture run this fall has been disappointing to most producers. The dry weather during the months following planting did not allow extensive rooting and stimulate lush growth of the wheat plant. The peak of cattle grazing on wheat came in November and since that time has declined.

The windy and cold months lie ahead. Wheat plants can be damaged by very cold weather when the soil is extra dry and the root system is not fully developed. Topgrowth is little or none until Mid-February. Some fields do not now have enough cover to prevent wind erosion during an extended period of high winds.

The odds for receiving beneficial moisture from rain or snow during the coming two to three months is not great. Producers now hope for the annual good winter rain or a heavy blanket of wet snow to resupply needed moisture.

* * *

The stocker cattle have done pretty good despite the limited wheat grazing. The fodder and immature grain furnished by the forages and grain sorghum crop has been used more than usual. There was some weakening of market prices on cattle after stocking. Some strength in the market has occured recently. Wheat pasture cattle which was bought right, has little or no death losses or sickness, and had wheat and stalk field grazing should return a reasonable profit.

The heavy wheat pasture cattle which have reached feeder weight will be marketed in late December or January. The lighter end will be fed during January and February and go on wheat during the spring growth. These cattle will be sold to feeders after the spring wheat run or will be held until summer grass next year.

Fire hazards increase as homes prepare for the holiday season. Please be extra cafeful in and around your home this holiday season.

Chester Cunningham, counselor at Canyon High School, will tour the Military Academy at West Point this month upon invitation from the institution.

He will be at the academy three days, from Dec. 18 to 21.

He will make the trip by Air Force aircraft and will leave from Lubbock the morning of Dec. 18. He will make the return trip to Lubbock Dec. 21.

Colonel Paul Casper, USMA liason officer told Cunningham he would have an opportunity to familiarize himself with both the admissions and academic programs of West Point.

STUDENT MEMBERS of the Inter-Faith Council at West Texas State University Tuesday decided to discontinue the annual Religious Emphasis Week on the campus.

Reason given for the action was withdrawal of support last week by six campus religious groups.

The Wilson lectures will continue and will be supported by all religious groups on campus.

AN ALL-SCHOOL "caroling-party" for students of West Texas State University will be held Sunday evening, December 18, at 8 o'clock.

The group will meet at the Episcopal University Center, 2516 Fourth Avenue, for a refreshment hour and then disburse throughout the city to sing carols.

Sponsored by the Campus Christian Community, the event will be a continuation of the cooperative efforts of campus ministries including the Baptist, Catholic, Disciples of Christ, Episcopal. Lutheran, Methodist and Presbyterain.

THE CANYON HOME Demonstration Club has donated $100 with which to buy children's books, Mrs. Chester Pierle told the Randall County Library Board last week.

Mrs. T. B. McCarter, chairman of the Board, presented a report concerning her recent visit to the District Region I Amarillo Library Association meeting at the Amarillo College Library.

Mrs. McCarter said publicity was the key to achieving any goal the Library Board might have.

Those present included Mesdames Weldon Hager, Don Standley, James Murphey White, Charles Smallwood, S.B. Louder, Johnny Raymond, T.B. McCarter and Chester Pierle.

DR. JOHN E. GREEN of the department of music at West Texas State University conducted a concert for Region I, North Zone Class A All Region Band in Shamrock Friday and Saturday evenings.

Students from 17 area Panhandle towns composed the membership of the band.

ANNUAL CHRISTMAS Eve program will be held December 24 at the First Presbyterian Church of Canyon.

The program will include a family candlelight service.

Other plans for the church include a meeting of the Prairie Clipper Ship Sunday, December 18, at 5:30 p.m. which will feature a pot luck supper.

A CONCERT OF SACRED Christmas music will be presented Sunday, December 18, at 7 p.m. at St. Paul Lutheran Church and Student Center, 2600 Fourth Avenue.

Featured vocalist will be Elsa Porter. Several soloes and duets will feature Judy Balo, Midland sophomore, and Lyn Sharman, Falls Church, Virginia freshman.

The church choir, directed by Mrs. John Green, will sing a French carol "Sing We Noel", "How Far Is It To Bethlehem" by Christiansen, and "As Lately We Watched", an Austrian folk-song.

Flutist, Nancy Green of Canyon High School, and Mrs. Gerald Schultz, organist, will combine efforts on "In Dulci Jubilo" by Koch.

A refreshment hour will be held at the conclusion of the program. The public is invited to attend.

CANYON HIGH'S 'B' team rolled to a crushing 52-38 victory over the Dimmitt 'B' team last week.

Canyon led in every quarter, holding 17-6, 27-21, and 40-31 quarter margins over the Bobcate before the final 52-38 score.

Lon Conner put in 13 points for the Eagles, while Jackie Thrasher picked up 12.

CHRISTMAS CHOIR program at the First Methodist Church will be held Sunday, December 18, at 5:15 p.m.

All choirs of the church will participate in the special program which will feature special music, soloes, and congregational singing.

Directing the choirs will be Gene Murray, sanctuary choir; Miss Nancy Davis, junior high choir; Mrs. R. E. Barnard, junior choir; and Mrs. A. W. Lair, primary choir.

The program will be concluded with a church supper at 6 p.m. served by the senior high Methodist Youth Fellowship.

Regular meetings are then slated for senior and junior high MYF groups and members of the Wesley Foundation are slated to participate in an all-campus "caroling" party.

STAFF MEMBERS of the Canyon News and their families were entertained with a Christmas social at the Girl Scout Building last Thursday evening.

The group had a hamburger supper and concluded the evening with several types of games. Approximately 30 were present for the occasion.

CANYON RESIDENTS had donated a total of $566 to the Tuberculosis Christmas seal campaign as of Friday, December 9, according to Dr. J. Edwin Low, local sales chairman.

SIGNS MARKING the route to Palo Duro Canyon State Park will soon be erected at 11th St. and US 60 and 4th Ave. and 11th St.

City Manager Gary Gwyn said he had received notification on the project from the Texas Highway Department.

All costs will be paid by the Department, Gwyn stated.

Yule Tree Is Costly

A small Christmas tree cost two West Texas State University students $20.

The pair admitted to Corporation Court Judge Burney Slack they had taken the tree from a local super market. He set their fines at $10 each.

Burglars Hit White Store

A strong and somewhat agile burglar took merchandise valued at about $125 from White's Auto, 1609 4th Ave., sometime Friday night.

Investigating City Police and Randall County Deputies said the burglar moved an air conditioner atop the building and slid through the unit's small vent that leads to the floor below.

Taken was an estimated 100 boxes of 22 caliber short, long, long rifle and hollow point shells, two boxes of 30-30 caliber ammunition, and a black Arvin seven-transistor radio, said Howard Morris, store manager.

The burglar left through a back door.

Sports Briefs

FORMER CANYON STAR Ricky Bacon led the West Texas State Freshmen to a 78-73 triumph over Clarendon Junior College in Buffalo Fieldhouse on Monday night.

Bacon rippled the nets for 31 points and hauled down 16 rebounds, while teammate David Cole put on a dazzling dribbling and passing show enroute to a 12-point performance.

It was a satisfying win for the Stompers, who had fallen in two previous games against the Bulldogs.

The scoring went as follows: Bacon 31, Mike Kimmins 15, Cole 12, John Burkhalter 11, and Mike Horton 11.

Following Bacon in rebounds were Burkhalter with nine and Kimmins with eight.

CANYON JUNIOR HIGH'S Eighth and Ninth Grade girls swept a doubleheader from St. Mary's of Amarillo Thursday evening.

The Ninth Grade posted a 36-28 win, while the Eighth Grade was victorious by a 21-14 score.

Cheryl Davis canned 16 points for the Ninth Grade, while Linda Lehman racked up 13 markers. Judy Davis pumped in six.

Kim Tucker was the high scorer for the Eighth Grade, hitting the mark for 12 points. Martha Hager was runner-up in scoring honors with four.

The Ninth Grade's scoring splits by quarters were 7-10-15-4 for 36 points. The Eighth Grade splits were 5-3-5-8 for 21.

The Ninth Graders now own a 4-1 record, while the Eighth Grade stands 3-1. The Seventh Grade, idle last week, are 1-0.

Chairman for the program was W. W. Grisham, Jr., district agent for Texas A & M's Extension Service. Also present was Dr. Ted Trew, assistant dean of agriculture at A&M.

A PEP Economic Report and 198-page study concerning the 26-county PEP area, was presented by C. James Murphrey, Extension Area Farm Management specialist and coordinator of PEP. Numerous public and private agencies and firms contributed resource data and suggestions for the report.

The report shows water and soil tables, weather information and petro-chemical reports for the region.

Agriculture agency representatives from Farms Home Administration, Soil Conservation districts, Soil Conservation Service, vocational agriculture and home economics as part of the Texas School systems and Agriculture Stabilization Conservation Service.

The meeting here was one of four area conferences slated by PEP.

life.

"I don't figure any man has any business getting married until he is older and knows what he is doing," he declared.

Wislon's hat, or as he terms it his "crown", is a brown and somewhat floppy chapeau to which he has affixed buttons, pins, small dolls and other items.

Wilson also was wearing three shirts. One was red, one was a faded blue and the top garment was a bright brown. Over the shirts he wore a pair of coveralls and a green jumper.

The protective clothing, he explained was worn because he was unsure of the weather here.

"We're not only fighting people outside this country," Wilson sadly stated, "but we're fighting among ourselves--and we're supposed to be a Christian nation but we don't live up to it."

Wilson said his family had broken up many years ago and he had tried to live with relatives for a while.

"That didn't work very well, and I'm sorry I left them, but I've learned a lot," he said.

Wilson also commented there was a vast amount of difference between a hobo and a bum.

"A bum today is what we used to call 'white trash'", he said. "A bum won't do anything--he won't even help build a fire."

Wilson said he avoided association with bums because they were often arrested.

"A bum" Wilson emphatically stated, "is nothing but a wino."

Speaking of arrests, Wilson recalled one incident in Port Arthur while he was attempting to solicit a free meal.

"As the patrolman was taking me into city hall, the chief of police walked up," Wilson elaborated.

When asked by the chief why he had arrested the "old man", the patrolman said because he was trying to get a free meal.

"When the chief asked the patrolman what he was doing in the cafe, he meekly replied he himself was there drinking a FREE cup of coffee," Wilson laughed.

Further expounding on philosophy, Wilson commented, "There's only one thing happier than a married woman and that is an unmarried man."

Wilson said his retirement plans might include a book about his life and travels.

"I can't work much anymore because I'm getting older and since there is more gas and machinery people don't hire me -- I guess a book might be in order," he said.

"If I can put my knowledge to work like a good man should it will be alright--at least I can't do any harm," he concluded.

Canyon Capers Plan For Meet

Canyon Capers will hold their Christmas party next regular meeting, December 19, and all members are asked to provide Christmas foods for the occasion and white elephant gifts for the exchange.

Harmony Hoedowners were guests at the Capers Monday meeting and re-captured their club banner. They also announced an anniversary dance to be held Friday evening in Amarillo.

During the business meeting, Capers members voted to cancel meetings which are regularly slated for December 26 and January 2.

Aldridge . .

on disciplinary probation Jan. 24 and was alledged to have violated the terms of the probation Jan. 25.

Through his attorney, Aldridge obtained a temporary restraining order from Judge Jordan and was returned to classes at the university.

The writ of mandamus was issued by Judge Jordan in 47th District Court Feb. 24. The ruling was appealed by Bailey on behalf of the university and the case was heard by the 7th Court of Civil Appeals. That court overturned the trial court Nov. 7.

Aldridge told The News Tuesday that he does not know what he will do now.

He said he has had some thought about fulfilling his military obligation. He also is pondering going to work in the oil fields until he can get back in school.

Aldridge said he explored the possibility of transfer to another college. He declared this impractical because he would "lose too many hours."

He could have entered Texas Tech, Arlington State or Sul Ross at the beginning of the fall semester.

He said Tech would only accept 11 academic hours for the preceding semester and he would have lost two hours.

"At Arlington State I would have been only a second semester sophomore," he declared.

Aldridge said he had planned to get married in June.

He had also planned to coach. "I had several opportunities if I could graduate," he declared.

Aldridge said he understands the position of university authorities. "I see their position," he said. "I don't feel like it's right but I see it."

Dr. Carruth said work completed last spring by Aldridge will be allowed to stand. Aldridge has completed 93 semester hours this fall.

He would have been within two hours of graduation after this spring, had he been able to finish this semester.

Dr. Carruth said Tuesday that Aldridge had not been back in his office for any disciplinary action since last January.

"His class attendance and academic record have been all right as far as I know," Dean Carruth said.

Aldridge said he has a "B" average for the fall semester.

The indefinite suspension means, Dr. Carruth said, that Aldridge is now out of school for an indefinite period, and that the earliest that he, Dr. Carruth, would consider reinstatement for Aldridge would be "prior to the fall semester."

Dr. Carruth said that there were some colleges which probably would accept Aldridge, but he could not name any specific ones.

The ruling of the appeals court definitely strengthens disciplinary rules and regulations of colleges in the state, Dr. Carruth said, and it reaffirms the discretionary power of the college authorities.

Two Geese, One Bullet

"It only took one bullet to get them," said Delbert Davis, local postman, who bagged his limit with the first shot one afternoon last week.

The two geese were flying alone according to Davis, who was hunting with Carl and Sandy Hair at the time of the incident.

Hurricanes Wreck Buffaloes 70-57

BY JON LOW

Tulsa's Golden Hurricane wore down an outmanned team of West Texas State Buffaloes and coasted to a 70-57 victory to spoil the Buffs' seasonal collegiate debut Monday night in Buffalo Fieldhouse.

Tulsa grabbed a 7-0 lead on the brilliant shooting of sophomore Bobby Smith and was never headed, despite a sensational 33-point output by WT sophomore Mike Mitchell.

Flashy Eldridge Webb, an all-American candidate at guard, popped the nets for 20 long-range points, and when not shooting passed off marvelously to Smith, who hit for 21 Hurricane points. Rob Washington added 17 markers for Tulsa.

West Texas closed to within two points late in the first quarter when Mitchell canned a free throw to leave the Buffs trailing 14-12.

Mitchell was the top scorer of the night with 33 points, hitting 58% of his shots from the field. For Tulsa, Webb and Washington enjoyed 56% shooting success and Smith had a 50% accuracy mark.

It was a great night for underclassmen, as Mitchell, Smith, and Washington are merely sophomores and Webb is a junior.

After the Buffs drew close late in the first quarter, Tulsa pulled steadily away, and owned its largest lead--22 points--near the close of the third period.

The Golden Hurricane maintained a near 20-point lead for the rest of the night until Mitchell rallied West Texas to within 13 points just before the game's end.

Tulsa unveiled a tenacious defense, never allowing the Buffs to work the ball inside to proven board men Vern Furlow and Mickey Fitts, and held WT to a poor 38.8% field goal accuracy.

Tulsa's team field goal percentage was also low at 42.2%.

In dominating every phase of the game, Tulsa was especially in control of the boards, hauling in 53 rebounds to 20 for West Texas. Smith and Washington showed valuable versatility, grabbing 17 and 15 rebounds, respectively. Mitchell was the high rebounder for the Buffaloes with five.

Mitchell was awarded the Buffalo Award by the WT coaches. The Buffalo Award goes to the West Texas player in each home game who sparks the team and does the most to incite the team to play better basketball. Each winner is honored with a plaque bearing his name that hangs underneath a miniature Buffalo on the wall of the gym at the following home game.

Mitchell led his team in both points and rebounds, although he had to come off the bench because he was not a starter in the game. He scored 58% of WT's total points.

The Buffs' 57 points came on 33 by Mitchell, six by Rodney Teague, five by David Nowlin, four by Mickey Fitts, three by Jim Neilson, and two each by Val Franklin, Gary Sikes, and Vern Furlow.

At the half, Tulsa led 36-24.

Buffs To Meet ACC Saturday

Caoch Jimmy Viramontes' West Texas State Buffs will seek to even their 1966-67 collegiate record at 1-1 when they face a strong Abilene Christian team in Abilene Saturday.

The Wildcats posted a 21-7 record last year--the best in the school's history,--and beat West Texas by scores of 62-52 and 71-60.

The Wildcats are not expected to be as potent as they were last year when they won the Southland Conference with a perfect 8-0 record, but plenty of material is still around for Coach Dee Nut.

Nut's lifetime record is 172-112.

John Ray Godfrey is a returning all - Southland Conference guard, and will be teaming in the backcourt with Larry Adams. Top Cats up front are Wendell Stewart and David Wray, who hit a blistering 63.1% of his field goal attempts last season.

Coach Gail Simpson's Stompers, the WTSU Freshmen, visit Levelland for a game with South Plains on Friday evening.

COACH JOE KERBEL of West Texas State is shown with Daryl Wynn, the Buffs' first high school signee of the current football recruiting season. Wynn, an all-district quarterback and middle linebacker from Follett, stands 6-4 and weighs 180. Wynn captained his football team and is also a participant in track, basketball, and tennis, as well as a member of the National Honor Society, Student Council, and Future Farmers of America. The Follett senior is vying with a classmate for valedictorian honors.

Mike Mitchell Named Player Of Week

Blazing the nets for 33 points against the powerful Tulsa Golden Hurricane has won the Canyon News' Player of the Week Award for West Texas State sophomore Mike Mitchell.

Mitchell started the Tulsa clash on the bench, but once in the game he made up for his initial absence by leading the Buffaloes in both scoring and rebounds.

Mike has always been a terrific shooter. As a freshman last year he hit 51.8% of his shots in averaging 22.5 points a game. Twice he ripped the Texas Tech Frosh for 36 and 32 points.

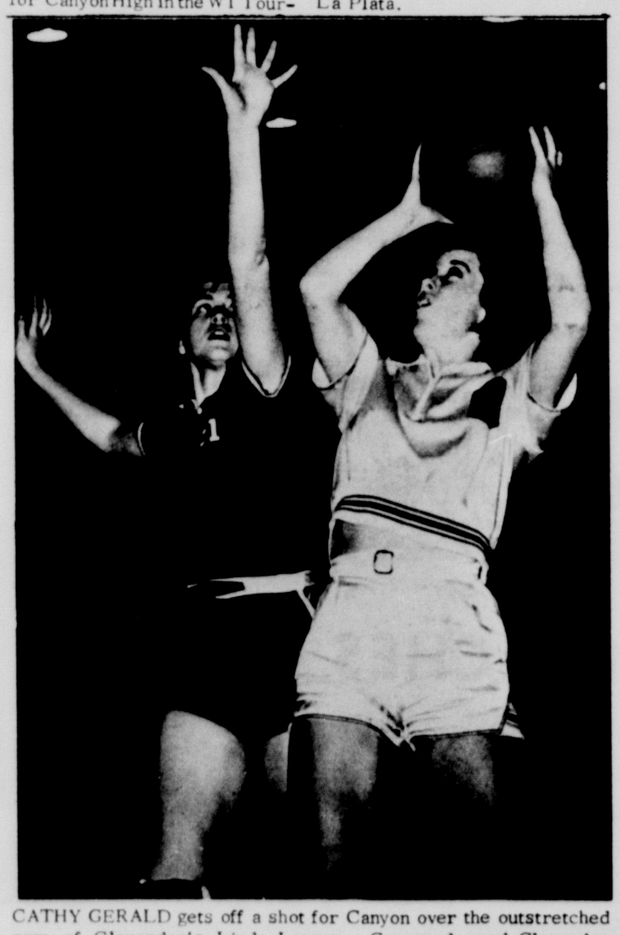

Mitchell is from Roswell, N.M., where he played on two state champion basketball teams. He was twice named all-state in basketball, and also won all-state honors in baseball twice. He stands 6-3, and is the WT scoring leader thus far this season.

Mike is a speech major at WTSU.

Pressing Mitchell with an outstanding performance was Ricky Bacon of the West Texas State Freshman. A 6-7 Canyon product, Bacon dumped in 31 points in a 78-73 win over Clarendon Junior College and collected 16 rebounds.

Other city players deserving salutes are Mike Barnes for 25 and 23-point performances for Canyon High in the WT Tournament; CHS's Pam Sternenberg for 26 and 19 points in the same tournament; Cheryl Davis of the CJHS Ninth Grade girls for 16 points against St. Mary's of Amarillo.

Hereford La Plata absorbed a fine 20-point barrage by CJHS Seventh Grader Billy Bob Taylor, while Johnny Johnson racked up nine of his 16 points in the last quarter to lead CJHS to a 39-38 ninth grade win over La Plata.

CATHY GERALD gets off a shot for Canyon over the outstretched arm of Clarendon's Linda Longan. Canyon downed Clarendon in the West Texas State Tournament by a score of 34-28.

Ninth Graders Tip Hereford

Canyon's Ninth Grade trimmed Hereford La Plata by a single point, 39-38, but La Plata got the best of the triple-header by defeating Canyon's Seventh and Eighth Grades.

Center Johnny Johnson led the Ninth Graders to their narrow win by canning 16 points, nine of them coming in the final quarter.

Lynn Salmon and Johnson teamed to calim 29 rebounds. Johnson grabbed 16 caroms and Salmon had 13.

Coach B. B. Kendrick singled out guards Larry Daniel and Keith Keeling for carrying out their assignments well.

The Eighth Grade lost a 30-28 heartbreaker to La Plata, although they hit on a fine 61% of their shots from the floor.

Frank Belcher paced the Canyon scorers with 10 points, and David Smith and David Carter had seven and six, respectively.

Belcher grabbed seven rebounds, Carter snatched six, and Andre Lynn had four.

Canyon's Seventh Graders were shot down by La Plata 40-29, despite a brilliant 20-point performance by Billy Bob Taylor.

"Taylor hit shots from all over the floor, and opposing coaches claimed he's one of the finest young shooters they've ever seen," said Seventh Grade Coach Swayne McCauley.

Ricky Edmondson was chosen by his coach for carrying out his assignments best, showing "hustle and good defense."

WINNING THE BATTLE for a rebound in the Canyon-Clarendon game is Joe Moore against an unidentified Clarendon cager. The scene of the action was the West Texas State Tournament. The Bronchos kicked Canyon in the game 61-57.

Ronald Clower of Dallas and his brother, Gene, of Canyon shot their limit of bob white and blue quail during the Thanksgiving holidays south of the city.

Tulia-Dimmitt Take WTSU Tournament

Tulia's girls and Dimmitt's boys made off with the titles in the WTSU Invitational High School Basketball Tournament, leaving Canyon's girls in the runner-up spot and the Eagle boys in last place.

Despite their last-place finish, the Eagle boys played the spoiler's role in knocking off Dimmitt in their final game in a 67-66 thriller.

The Eagle girls opened with two wins before falling to powerful Tulia, giving them a 2-1 mark and second place.

Pam Sternenberg's 26 points led the girls to a 47-27 blasting of Happy in their initial contest of the tournament. Charlotte Allen disregarded an injury and flipped in 13 points to aid the Canyon cause, while Cheryl Henry paced the Cowgirls with 12 points.

A fourth - period Clarendon rally felled the Eagles in the boys opener. Canyon was ahead 42-41 after three quarters, but the Broncs outscored the Eagles 20-15 in the final period for a 61-57 triumph.

Mike Barnes popped in 25 points for Canyon, with Joe Moore following with 11.

The girls set up a showdown with Tulia by bouncing past Clarendon 34-28. The scoring was evenly distributed, with Susan Swatzell and Pam Sternenberg getting 10 and Charlotte Allen netting seven. Marilyn Wieck led the rebounders with five.

Happy soph Wicky Culp added to the Canyon boys' opening-game miseries by leading the Cowboys to a 66-53 win over the Eagles with a 25-point output. Mike Barnes again topped the Eagles with 23 tallies, while Joe Moore threw in 16. Dave McNeill scored 13 for Happy.

The Tulia and Canyon girls put perfect 2-0 tournament records on the line in the top girls' game, and the Hornettes had too much sting for Canyon as they buzzed to a 57-38 victory.

Fabulous Freida Rosseau did it all for Tulia by pouring 41 points through the hoop. Pam Sternenberg and Charlotte Allen paced the Eagles with 19 and 12 points, respectively.

Beverly Brown and Marilyn Wieck each picked off four rebounds against the Hornettes.

The Eagle boys faced Dimmitt in their final game with no chance of escaping last place, while the Bobcats had already clinched the championship.

With the pressure off, the Eagles came through with a thrilling 67-66 upset. The victory avenged a previous one-point loss to the Bobcats in Dimmitt.

Richard Gardner and Mike Barnes each produced 16 points while Ricky Widick netted 14 for the Eagles.

Canyon had to fight all the way, as they trailed after each of the first three quarters. Dimmitt had owned quarter leads of 18-15, 33-28, and 52-50. The Eagles outshot the 'Cats 17-14 in the last period, after gaining on them 22-19 in the third quarter.

Eagles Go To Portales

The Canyon Eagles of Coach Tom Buchanan travel to Portales, N.M., and entertain Sanford-Fritch next week, while the Eagle girls of Coach Bob Schneider also meet Sanford-Fritch after weekend action in the Tulia Tournament.

Portales has won the New Mexico state championship for the past two years, and Buchanan reports that they have outstanding returnees from last year's team. The school's 'B' teams open the action at 5:30 p.m. (MST) with the varsity clash immediately following.

The Canyon girls meet Springlake in the first round of the Tulia Tournament at 1:15 p.m. Friday. Schneider describes Springlake as "tough--they beat Tulia by about 20 points." Tulia defeated Canyon last week enroute to the WT Tournament championship. Opponents and game times of other tournament games hinge on the outcome of the Springlake game.

Tuesday Canyon hosts Sanford-Fritch in a four-game affair with the varsity and 'B' teams of both the boys' and girls' teams hitting the courts. The 'B' team games begin at 5 p.m., and the games will run straight through in immediate succession.

The Eagles varsity and "B" squad fell Tuesday to Clovis, N.M. 72-46 and 73-54 respectively.

Scores by quarters were, for the Eagles, 14,18,33,46 and for Clovis, 20,36,53,72.

Forward Mike Barnes led the Eagles with 22 markers against what Buchanan termed "the best team we have played this year."

"We are making a lot of mistakes," the coach said, "and we need to overcome them."

Buchanan said the Eagles needed to be more consistent but that they would improve.

In the "B" tussle, Jackie Thrasher led the pack with 17 points.

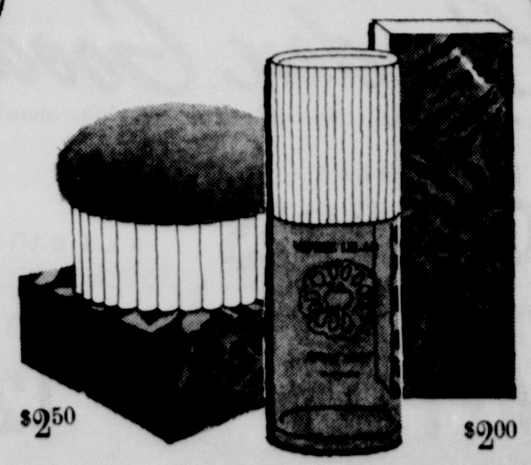

Socres by quarters were, for the Eagles, 11,25,35,54 and for Clovis 19,36,48, and 73.

Buchanan said the "B" team was doing a good job and was making progress.

The Eagles have no games scheduled during the Christmas holidays. The boys re-open at the Borger Tournament Dec. 29, and the girls will be off until Jan. 6 when they meet Perryton.

WHAT IS GLOMERULONEPHRITIS?

This type of kidney disease is usually caused by infectious germs. Often, the patient has had an acute sore throat or an upper respiratory infection. The germs apparently get into the kidneys by way of the blood stream. The glomeruli, which are the filtering portion of the kidneys, strain out the germs which can multiply quickly.

This formerly hard-to-cure disease can now be successfully treated by the new anti-infective drugs we stock. But, diagnosis and treatment must not be delayed or these germs can cause permanent harm. It is wise to consult a physician at the beginning of any urinary discomfort symptoms.

Interment was at Dreamland Cemetery under the direction of LaGrone Funeral Home.

Mr. Gray died Saturday at his home in Canyon. He had moved to Canyon three months ago from Paris, Texas where he had lived for 15 years. Born at Perryville, Arkansas, Mr. Gray was 86 years old at the time of his death.

Mr. Gray was a retired farmer and ginner.

Grandsons served as active pallbearers including Ronnie Hawthorne, James Seales, Alan Ray Gray, Leroy Willson, Wayne Miller, and Landrem Osborne. Honorary pallbearers were Joe Cox, Charlie Pruitt, J. C. Newton, V. L. Fowler, Curtis Butler and Fred Ely.

'Red' Gray, both of Canyon, Jack Gray of Hereford, and Jake Gray of Dallas; four daughters, Voisy Sherwood of Sumner, Mildred Seales and Mrs. Percy Hawthorne, both of Canyon, and Mrs. Bill McDowell of Hereford; 28 grandchildren; 28 great grandchildren and 8 great-great grandchildren.

Three Year Grant Awarded Dr. Mueller

A $30,000 three-year research grant, the fifth to be received in the last two years by chemistry department professors at West Texas State University, has been awarded to Dr. Albert G. Mueller by the Robert A. Welch Foundation of Houston.

Dr. Mueller's grant, effective May 1 through April 30, 1970, will cover his project, "The Synthesis and Study of New Chelating Agents." Similar grants were announced last summer to Dr. Gene Crowder, Dr. Marion Guidry, and Dr. Alfred Schram, whose work will start June 1.

A fifth grant from the Welch Foundation was made last year to Dr. Ray Malzahn, who is currently conducting research on "Pyrolysis of Propargyl Ethers" in the Killgore Research Center. The other four men will also conduct their projects in the center.

The new chelating agents, or compounds, which Dr. Mueller will be utilizing are useful for metal analyses, for determining basic properties of liquids, and as anti-cancer reagents, he said. Related compounds have already shown activity against certain types of cancer, Dr. Mueller said.

His research will require some new equipment, including a highly sensitive ultra-violet spectrophotometer, he said. Funds from the grant will also be used for at least one graduate assistant, and probably for additional graduate and undergraduate student research, Dr. Mueller said. His first graduate assistant will be Gary Boyd of Odessa, who received his B.S. in chemistry in May from WTSU.

"A chelating agent is a compound that is able to bind metals in a ring structure known as a chelate," Dr. Mueller said. "New chelating agents whose color depends upon the solvent in which they are dissolved or the type of light with which they are illuminated, will be prepared. Compounds with this combination of properties have already been synthesized, and investigation of their fundamental characteristics is desirable."

Dr. Mueller joined the WTSU chemistry department in 1964. He holds the B.A. and Ph. D. degrees from the University of Louisville. He was a chemist for St. Anthony's Hospital in Louisville and the Institute of Gas Technology in Chicago. He has been a research assistant for E.I duPont and for the Oak Ridge National Laboratory.
